21st June 2012

Dear Liam,

At Mick the Printer we like quality and cleanliness.

I recently bought my car to you to have the wheels re-dressed as one in particular had all the lacquer weathered off it and the other 3 weren't looking that good either.

You took the car in and lent me a courtesy car so as not to disrupt my day.

24 Hours later you called to say she was ready and when I arrived to collect the car I immediately noticed my shiny new wheels gleaming in the sunshine, what a fantastic job. I like attention to detail, and Liam had rebalanced the wheels as well BUT had put the little lead weight things on the insides of the wheels so they don't show on the outside, nice touch.

If you want expert advice, excellent workmanship and a bit more I would thoroughly recommend you visit Liam should you need any car cosmetic work doing.

Thanks Liam, great job,

*Mick.*

Yours faithfully,  
Mick (the Printer) Walpole
