Testimonial for **Ready 4 Retail**

Due to purchasing a new vehicle we recently decided to sell one of our older vans.

After emptying the materials and boarding out of the back and removing the sign righting the van looked unloved at best, an ex-employee had left it in what can only be pleasantly described as "Stig of the Dumps living room" leaving us to sort out his mess.

After remembering hearing Liam Kelly's story, at the BNI Big Breakfast a year or so ago, where Liam had told us how he helped a driver save thousands of pounds by repairing his lorry I asked him to take a look at our van.

Liam looked around and inside the van and made helpful suggestions on what he thought was required to get it to a saleable condition and provided me with a very reasonable quote for all of the repairs and valeting.

I had no hesitation in booking our vehicle in at **Ready 4 Retail** who kindly fitted us into their busy schedule the following Monday for 4 days. I received a call from Liam a day early to let me know it was ready for collection.

The van now looks like it has been loved from day one making us confident of achieving a better price and a quick sale **Ready 4 Retail** really live up to their name.

A handwritten signature in black ink, appearing to read "R. Timms", is written over a light blue circular stamp.

ROGER TIMMS - DIRECTOR
