Dear Liam and Team

My MX5 Overhaul!

Having seen Liam's impressive presentations regarding Ready 4 Retail's cosmetic improvements to vehicles, I decided my 20 year old MX5 should pay a visit to Liam to inspect her rapidly-rusting arches.

Liam gave her the once over and, instead of doing the usual mechanic-like intake of breath and shaking his head, he told me that all was not lost – she was repairable! Not only that, she was repairable at a very, very reasonable rate (I had been quoted an astronomical sum by another garage).

I left her with Liam and his team, with the confidence that they would do their best to fix her up a bit, but knowing at the same time that it was a very tall order, given her age and condition.

Liam sent me a message to say she was done and to check out their facebook page for pictures. To say I was blown away was an understatement! The car looked amazing – all the rusting arches had been filled, repaired and re-sprayed, the wheels buffed up to new and she had received a full polish and valet inside too. I'm now the proud owner again of a classic Mark 1 MX5 in all her glory!

I can't thank Liam and his team enough for the effort they put into restoring my car and I've already posted comments on facebook and beyond to recommend Ready 4 Retail to everyone I know for a reliable, efficient and cost-effective service.

Thanks Liam and team!

Kind regards

Teresa Crampin
